

Ronacrete Careers

The following career opportunity is currently available:

Position: Product Development Engineer / Chemist
Ronacrete (Guangzhou) Construction Products Ltd, Guangzhou, China

Company

Ronacrete Ltd is a successful British company with operations in the UK and Asia. Ronacrete (Guangzhou) Construction Products Ltd is a busy manufacturing and sales base in Southern China close to Guangzhou. We specialize in pre-packed technical and decorative construction products which are distributed in China, Hong Kong and across Asia.

Responsibilities

Reporting directly to the General Manager the successful candidate will be responsible for developing new products to meet various performance standards, the maintenance and improvement of our existing product range and providing technical advice regarding product quality control.

The products involved are pre-packed high performance cement based powders, polymer dispersions and liquid admixtures used in the construction industry including:

- Repair mortars and concretes
- Self levelling screeds
- Waterproofing membranes and treatments
- Tile adhesives and bonding agents
- Renders and fairing coats

Requirements

A working knowledge of formulating and testing the aforementioned products or relevant experience in a related field.

Self motivated, hardworking and diligent.

Flexible and team orientated.

Full command of spoken and written English.

Cantonese / Mandarin not essential but would be an advantage.

Benefits

Benefits are negotiable depending on relevant experience and ability but include:

- Attractive salary
- Medical cover
- Accommodation
- Transport subsidy

Background

The company has grown over the last several years and our staff and facilities operate at a high standard which now demands the attention of a full time R&D professional based in China. We are now looking for someone to focus on product development locally in Guangdong. A rewarding position with excellent career prospects awaits the right candidate.
