

The Outstanding Upper West Project in West Kowloon

‘Upper West’ a luxury boutique apartment project developed by Kowloon Development Co Ltd in West Kowloon had set the new dimensions of metropolitan living. **Ronacrete Tile Bonding System** is selected for its Superior - Quality Products and Professional on-site technical support for the interior tile bonding works.

Ronabond Super Tile Adhesive – SP is selected for fixing the demanding large size tiles in the kitchens, bathrooms & corridors to ensure a durable, high strength tile bonding works. **Ronabond Super Tile Adhesive – SP** is a HKCI PCCS-TA C2TES1 Compliant Single Part Tile Adhesive requiring only the addition of water to produce a professional grade high strength tile adhesive. To complement the spectacular appearance of the finished tile, **Ronafix Colour Grout Powder** is selected to grout the tile joints to achieve the best result. **Ronafix Colour Grout Powder** is a CG2WA compliant weather resistant cement-based grouting compound for Tiles, Granite and Marble. It is designed to minimize efflorescence, resist shrinkage and provide a waterproof surface for joints between tiles.

Much more than just a material supplier, Ronacrete also provide the on-site technical support, product training & site supervision throughout the project to help the client and the project achieve the best result. If you need a proven durable tile bonding system, contact Ronacrete !!
